

ORACLE University's 2008 Partner of the Year

User Adoption Services

TransAmerica Training Management provides custom end-user training solutions for individuals as well as small, large, and multi-geographic groups from both the public and private sectors.

We develop custom materials that reflect the client's unique business processes and contain references to data sets that are familiar to end users. A custom solution that is relevant to the organization serves as a learning tool to be leveraged in the post-go-live production environment.

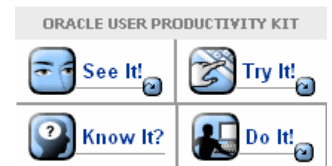

User Readiness

- Custom Development & Delivery
- "Jump Start" Programs
- All Oracle Curriculum
- Multiple Tool Sets
- Training Managed as a Project
- Oracle User Productivity Kit (UPK) Specialist

TransAmerica Training Management produces custom end user training materials that are designed to be:

- Just right for the audience
- Inclusive of client business policies and procedures
- True to life
- Practical
- Motivational
- Interesting to the audience

TransAmerica Training Management provides world class training solutions for your entire Oracle related implementation, project team and end-user populations.
